ABOUT US

SELCO, a social enterprise, was established in 1995 to provide sustainable energy services to underserved households and businesses. Over the last 15 years, SELCO has successfully served over 100,000 customers, improving their lives and livelihoods, through its 25 energy service centers across Karnataka, Kerala and Gujarat. In this process, we have developed a unique business model which brings the benefits of clean energy at an affordable price to rural India through financial and technological innovation. SELCO has shown that empowering rural customers can be economically, socially, and environmentally sustainable.
