

Digital Education for 7 Schools in Sullia Taluk

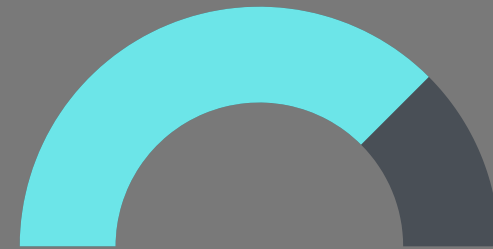

DEP at Govt High School Markanja Sullia.

Markanja is a village located in Sullia Taluk of Dakshina Kannada district in Karnataka. The village has a lot of power issues and a very poor mobile network, this has proved to be a hindrance for students to have access to modern educational facilities.

SELCO Solar along with its CSR partners came up with the initiative to install solar powered smart classrooms in 7 government schools in and around this village.

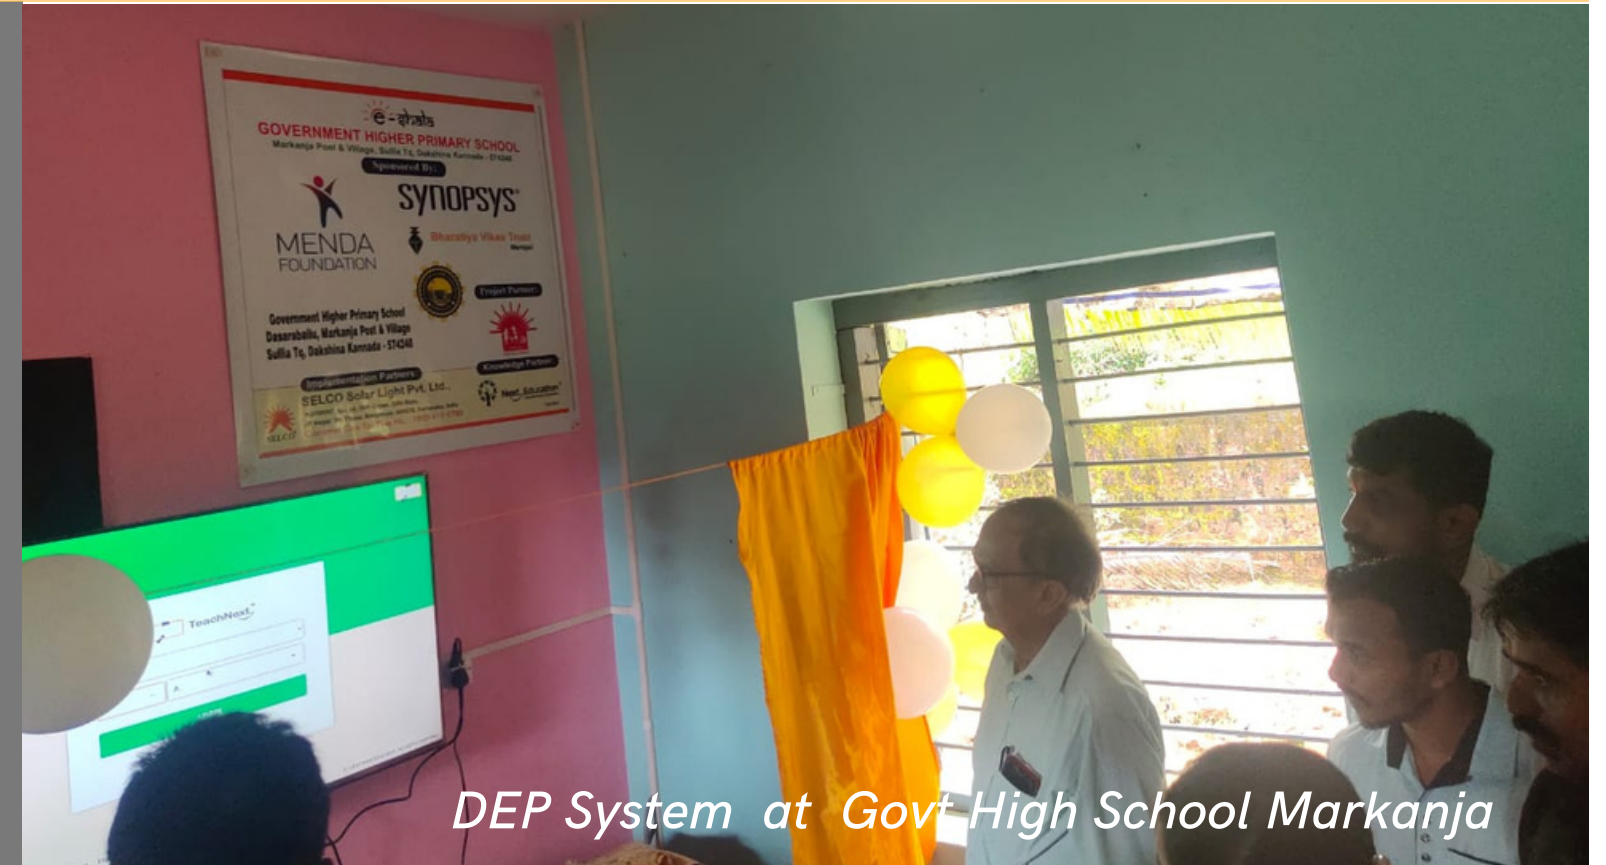

Impact

75%
CSR (Menda+
Synopsis+BVT)

25 % School

- The developments in these government schools have resulted in more students enrolling for schooling in these villages.
- The school authorities used the smart class as a marketing tool to raise local funds for infrastructural development of the schools.
