

Solar Powered Health Centers at Pune

- 3M, a multinational conglomerate company has one of its manufacturing units in Ranjangaon, Pune Karnataka.
- As a part of its CSR initiative 3M has partnered with SELCO to implement solar powered inverter systems and street lights to 7 PHCs around the radius of the its manufacturing plant.
- The health centers were identified by the partner along with the District Health Officer.

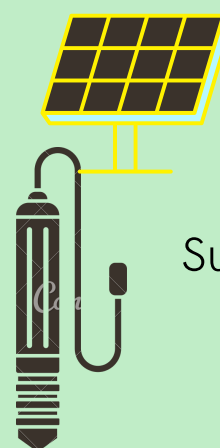

Systems Implemented:

Inverter Systems
5.4 kWp - 9.75 kWp
7 system

Street Light
12 W LED
30 nos

Submersible Water Pump
2 HP
1 No.

Impact:

- Provides uninterrupted power supply to deliver all medical services.
- If the model is successful, it can be replicated across other health centers around the radius of 3M's manufacturing facilities at other location.
